## SAFETY BLOW GUNS OSHA APPROVED

- Flow Stabilizer Valve for precise air control • Countoured design to comfortably fit operator's hand
- Chrome plated, lightweight zinc body • Cushioned thumb lever • Large hanging hook
- 1/4" Female NPT Inlet, 1/8" Female NPT outlet

Safety Models below meet OSHA requirements of 30PSI maximum outlet pressure when dead ended up to 150 PSI inlet pressure.

MODEL	FEATURES	APPLICATIONS	
<b>PERMA TIP GUN</b>  P/N 32-99010	Tamper-proof vent holes increase total air flow.  One piece, die cast construction  Also available with ISO inlet (P/N 32-99110).	Industrial and Automotive Shops where increased air flow is required.  General purpose safety gun for blowing away dust, metal chips wood chips, etc.	
<b>SUPER BOOSTER GUN</b>  P/N 32-99004	Unique Super-Booster Tip delivers largest volume of air at lower velocity.  Aspirating air reduces noise level.  Nylon tip cannot scratch or mar surfaces.	Industrial and Automotive Shops where a larger area must be covered and a more intense flow pattern is desired.	
<b>BOOSTER TIP GUN</b>  P/N 32-99014	Dual hole brass tip.  Greatly increases air flow.  Small tip can be used for narrow openings.	Industrial and Automotive applications where increased air volume is required but large area coverage is not necessary.	
<b>AIR SCREEN GUN</b>  P/N 32-99012	Brass air screen tip produces conical air stream around direct center stream.  Minimizes blow-back of chips or particles.	Machine, Tool and Die and Woodworking Shops where drilled or tapped blind holes must be blown out causing chip and particle blow-back.	
<b>BASIC GUN</b>  P/N 32-99011	Basic Gun meets OSHA requirements when used with Safety Tips below		
		Super Booster Tip	P/N 32-99005
		Booster Tip	P/N 32-99015
		Air Screen Tip	P/N 32-99013
		Straight Extension	12" - P/N 32-99020 18" - P/N 32-99022 24" - P/N 32-99024 36" - P/N 32-99026
		3" - P/N 32-99016 24" - P/N 32-99024	
Curved Extension		3" - P/N 32-99017
